

CORRO-SHIELD

When Performance Matters

- ▶ FLOOR AND WALL COATINGS
- ▶ SELF-LEVEL AND TROWEL SYSTEMS
- ▶ GELS AND LINERS
- ▶ MOISTURE REMEDIATION AND "GREEN CONCRETE" PRIMERS
- ▶ HEAT-RESISTANT FLOORING
- ▶ BRICK AND TILE GROUT
- ▶ EXPANSION JOINT MEMBRANES
- ▶ URETHANE COATINGS AND CONCRETE SYSTEMS

FOR OVER TWENTY YEARS **Corro-Shield** has been manufacturing superior performance epoxy systems that outlast and outperform competitive products. **Corro-Shield** products are the systems of choice for many Fortune 500 companies in the United States and are now available in Canada.

Corro-Shield Products Are Known And Trusted For:

Chemical resistance
Thermal shock resistance
Vibration and impact resistance
Moisture resistance
Microbial / bacterial resistance
UV resistance
Slip resistance

Corro-Shield International Inc.

SUPERIOR PERFORMANCE COATINGS

CASE STUDY:

Tropicana's claim may be "pure sunshine" but they are hard on their floors. Tropicana tried many different flooring solutions that claimed to be able to stand up to citric and other acids, thermal shock (steam cleaning) and cool temperatures...problems experienced frequently by food manufacturing companies.

Corro-Shield formulations provide high chemical resistance, can handle wide temperature variations including thermal shock (steam cleaning) and are U.S.D.A./C.I.F.A. compliant. When Tropicana switched from urethane solutions to Corro-Shield's epoxy alternatives they were pleasantly surprised by the floors ability to withstand abuse.

Tropicana uses a three product Corro-Shield system that consists of Corro-Cure LV FS, Corro-Flor and Corro-Cote.

Corro-Shield products have been installed at Tropicana for over eighteen years and Tropicana uses Corro-Shield exclusively.
